RED PANDAS!!!!

By Jeneba Turay

Ch.1 A Red Panda's Body

I researched red pandas! One fact about the red pandas body is that it's red, white, orange and black. A red panda is like a racoon because they have fur. The red panda tail is red and orange. Also it is white but it is black too. Red pandas have four

legs.

Additionally, red pandas are mammals like you because they have fur like you. Last it is also called the red or common panda.

Ch. 2 A Red Panda Diet

Do you want to learn about red pandas diet? First red pandas eats eggs. Next red pandas eats Babom. Also, red pandas eat Berry. last red panda eats leafs.

Ch. 3 Habitat for Red Pandas

Do you want to learn about the lesser pandas habitat? Come on,keep reading! My first fact

about
lesser
pandas is
that they
live in high
mountains.
Also you
can find
them in the
bamboo
forest in

China. My next fact is that they also live in Myanmar and Nepal. Now you know about a

lesser pandas habitat

<u>Ch. 4 A Red</u> <u>Panda life cycle</u>

Let me tell you about red pandas life cycle.First,red pandas only weighs 11 pounds when they're an adult . Next, red pandas can have one to four babies.A last fact about red pandas can live 12 to 14 years. Also, babies take 135 days to be born. Now

you know about red pandas life cycle.
